

UPDATED INFORMATION

The Brookfield Special Purpose Tax District Commission will have three positions up for election on November 4, 2025

On November 4, 2025, there will be a public election held at the Disciples United Methodist Church. Voters from Brookfield and Pelham Creek will choose three persons to serve as Commissioners on the Brookfield Special Purpose Tax District for four-year terms. (If you previously have voted at Dove Tree, note that the County has moved that voting district to vote at Disciples Methodist.)

The time for officially registering to be on the ballot has passed. But we still need at least one person willing to be a write-in candidate.

Candidates must be registered voters residing within Brookfield or Pelham Creek.

We are currently hoping to find candidates with “webmaster” experience.

The tax district generally meets 4 times per year for about an hour. Overall, the responsibility will amount to less than an hour a month.

Background Information

The Brookfield Special Purpose Tax District Commission is comprised of 5 elected residents from the Pelham Creek and Brookfield communities. The function of the Tax District is to administer tax money raised for the purpose of maintaining the landscaping around the Recreation Association facilities as well as landscaping at the community entrances. We also pay for the street lights. The Tax District also forwards the \$50 per house fee (collected by the County with the tax bills in Brookfield and Pelham Creek) to the Recreation Association for the purpose of maintenance and repair. Commissioners serve on a volunteer basis.

If you have questions, see further information – including the relationship between the Tax District and the Brookfield Recreation Association – at brookfieldsubdivision.org. Alternatively, you may contact any of the currently elected officials via Facebook or our web-links. You may also email us at brookfield@brookfieldtaxdistrict.org.

The Brookfield Recreation Association (BFRA) is made up of *dues paying members*. Members own the facility and are governed by a BFRA Board as allowed under their by-laws. This board then manages the pool, tennis and associated facilities using income generated from the fees they collect from their members.
